STRENGTHS

- Problem Solving
- UI/UX Thinking
- Team Collaboration
- Quick Learner
- Hackathon Ready

ABOUT ME

Motivated Full Stack Web Developer (MERN Stack) with hands-on experience building modern, scalable web apps. Passionate about clean code and intuitive UI. Actively participates in hackathons, AI workshops, and developer communities across India.

PROJECTS

IPL Guess Game

➔ iplguess12.netlify.app

React.js

CSS3

Netlify

- Built an interactive IPL guessing game with real-time scoring and dynamic UI using React.js.
- Fully responsive design; deployed on Netlify with automated CI/CD pipeline.

TradeX - Trading Platform

➔ tradex-frontend-1s53.onrender.com

React.js

Node.js

MongoDB

Render

- Full-featured trading platform with data visualization, user dashboard, and RESTful API integration.
- Styled with Tailwind CSS; backend built with Express.js + MongoDB, deployed on Render.
